TT AND TRIATHLON BIKES · 5 MIN READ

Our TT and tri range, and how to sell it

Complete bikes

BIKE	WHAT TO KNOW	LISTED FROM
Ceepo Viper	From Ceepo, a Japanese triathlon-specialist brand. Ultegra Di2.	₹3,50,000
Merida Time Warp Tri 5000	Merida's triathlon bike.	₹4,99,990
Cervélo P-Series	Triathlon bike. 105 Di2 from ₹7,29,999, Ultegra Di2 from ₹9,25,999.	₹7,29,999
Trek Speed Concept SLR 7	Trek's TT and triathlon bike with Ultegra Di2.	₹8,65,799

Watch out: the **Ceepo Mamba-R** sits next to the Viper on our site but it is an aero road bike with drop bars, not a triathlon bike.

Framesets

Cervélo P5 and P-Series, Cannondale SuperSlice LAB71, Look 796 Monoblade RS, Quick Pro TT:ONE (time trial) and TR:ONE (triathlon).

Prices are our website listings in November 2026. They change, so check the site before you quote.

Questions to ask

- Which event and what distance?
- Is it draft-legal? If yes, they need a road bike.
- Do you already own a road bike?
- Will you race UCI time trials too? Then the frame must be UCI-legal.
- How will you travel with the bike? Integrated cockpits take longer to pack.

What goes with the bike

- A bike fit. Always.
- An indoor trainer for position practice. We are a Wahoo dealer.
- Tri suit and race kit from our triathlon wear range.
- Hydration, race wheels and a power meter for riders chasing a time.

Honest advice

If this would be the customer's only bike, sell a road bike and add clip-on bars. They will ride it more, and come back for the TT bike later.

Remember these

- Ceepo Viper is the lowest-priced complete tri bike. Speed Concept SLR 7 is the highest.
- Ceepo Mamba-R is an aero road bike, not a tri bike.
- Ask about draft-legal rules and UCI racing before recommending.
- Always attach a bike fit. Offer a trainer, tri kit, hydration and wheels.
